WARNINGS!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

- Not liable for repainted surfaces or lacquer paint. Repainted vehicles should not be immediately covered. It is best to check with your painter or body shop for recommended "cure" time. Use of any cover before the cure time has been reached may cause damage which is not due to the cover, but due to the new paint.

- For maximum performance, DO NOT cover a wet vehicle.

- CAUTION: NEVER cover a hot tailpipe.

- NEVER cover a vehicle with a convertible top down, windows or sun roof open, or t-tops off.

- Do not use a cover while tailoring a vehicle.

Weather Conditions:

High Winds: If you are located in a high wind area be sure to tie down your cover using the grommets provided. Do not rely solely on the elasticized bottom of your cover to provide maximum protection from strong winds.

Freezing Weather: In unusual circumstances, a layer of ice may form between your vehicle and the cover. This layer of ice must be thawed before removing the cover. You may expedite the thawing process by pouring warm water over the

cover and gently lifting the cover as the ice begins to melt. If any resistance occurs, repeat process.
